

چرخه ویلسون
Wilson's Cycle

Age of the ocean crust

Each colored band represents a span of time covering the age of the crust within the band.

The boundaries between bands are contours of equal age called isochrons.

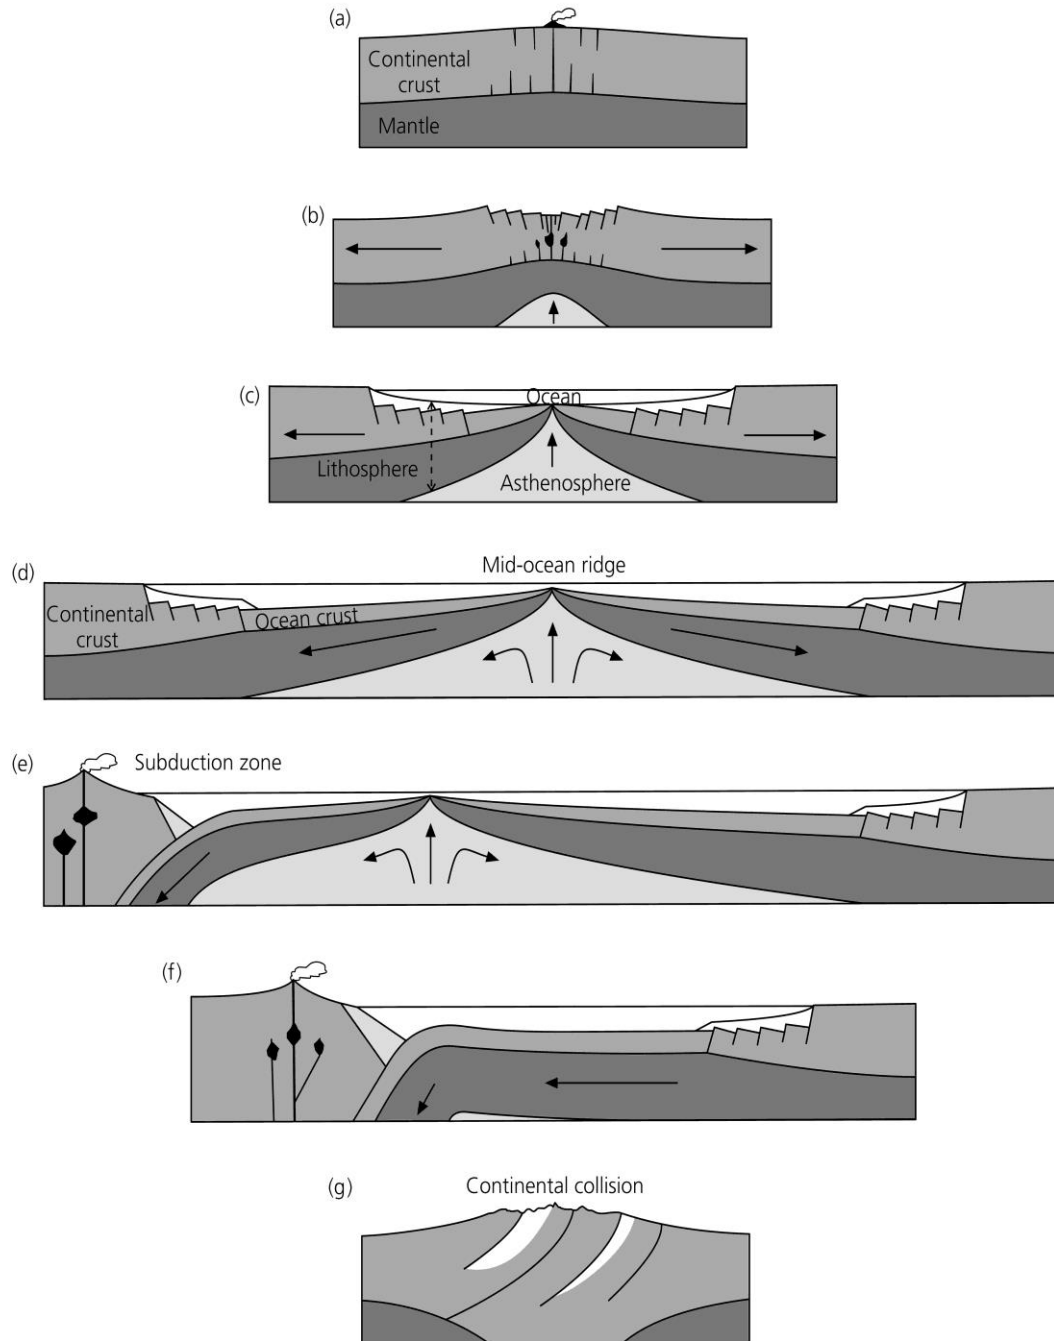

Millions of years ago (Ma)

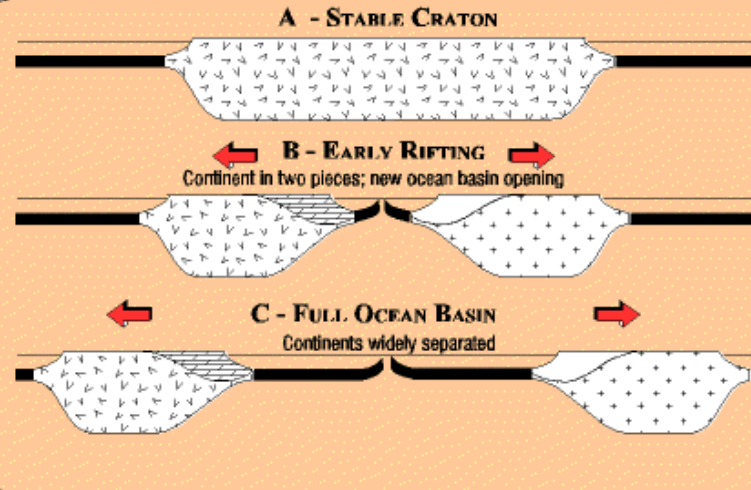

سېکل ویلسون - Wilsons Cycle

- 1- مرحله جنيني
- 2- مرحله جواني
- 3- مرحله بلوغ
- 4-مرحله افول
- 5- مرحله نهايي
- 6- زمين درز(سوچر زون)
